TAP 24/7 Emergency line
(accessibly only by landlines, toll-free number)

SAFETY FIRST!

Say **NO** to activities that might endanger the safe operation of the pipeline. Therefore:

→ Call TAP's General Enquiries and Grievances line 213 010 4500:

(a) Before you start any activities within the "Ownership Restriction" Zone:

- for information or assistance in identifying the zone
- for support from TAP engineers.

(b) Before proceeding with the construction of projects such as fences, roads, networks, solar panels, etc.

→ Call TAP's 24/7 Emergency line 210 555 0040 or 800 118 1881:

(a) if you started activities and came across the pipeline. **ATTENTION!** Immediately stop all relevant activities.

(b) in case you become aware of:

- emergencies concerning the pipeline
- non-authorized works being performed in the "Ownership Restriction" Zone or the pipeline facilities.

For the safe and reliable operation of the pipeline, TAP:

Installs posts designating

(a) the kilometre point of the pipeline, which is buried approximately 1m below ground.

(b) the horizontal distance of the marker post from the pipeline's axis.

Carries out controls, inspections and maintenance works using the most advanced tools, in collaboration with its contractors.

Responds promptly to alerts, to address any incidents pertaining to the operation of the pipeline.

To be able to perform these activities, TAP requires clear and unobstructed access to the pipeline's "Ownership Restriction" Zone.

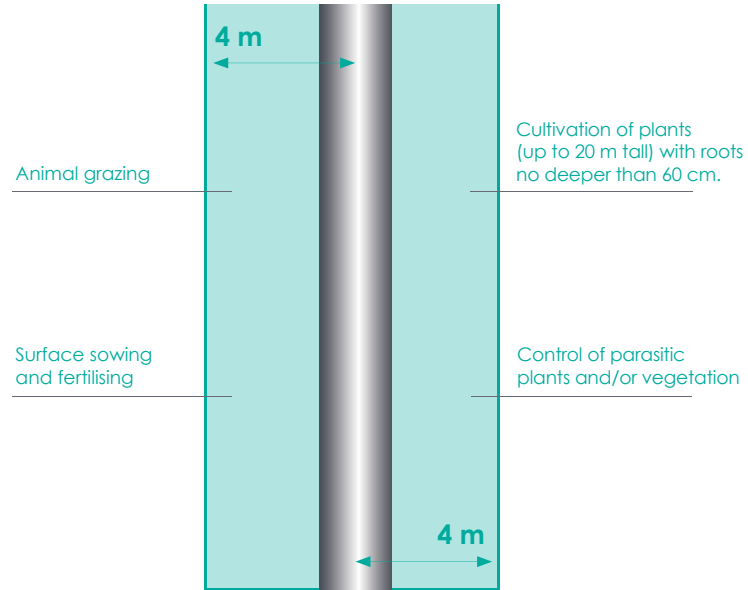

Marker Posts

- Protect the marker posts. They are there for your safety - do not damage or remove them.
- In case you become aware of damage or removal of the marker posts, please contact TAP
- Do not reposition them without the presence of a TAP representative.

What's allowed

IN THE "OWNERSHIP RESTRICTION" ZONE
(4+4m ON EITHER SIDE OF THE PIPELINE AXIS)

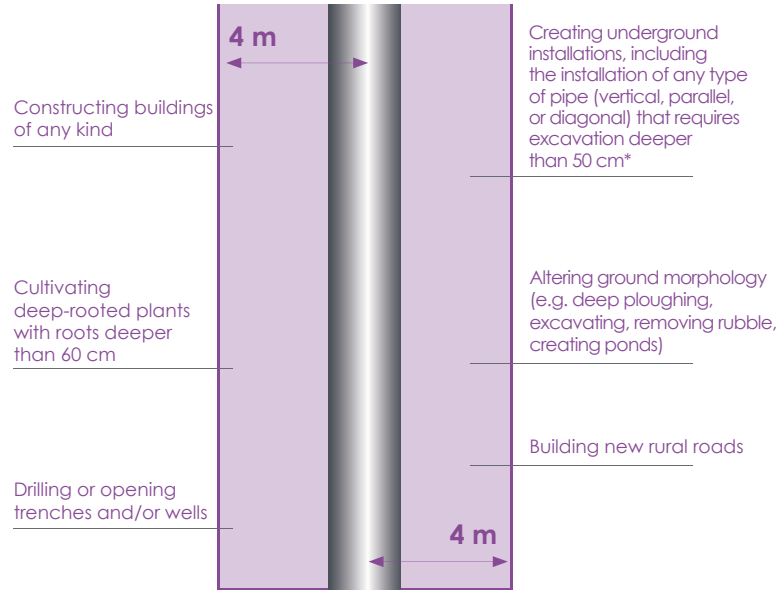

Land owners/users may continue to carry out the following activities:

What's not allowed

IN THE "OWNERSHIP RESTRICTION" ZONE
(4+4m ON EITHER SIDE OF THE PIPELINE AXIS)

According to Greek legislation, the following activities are not allowed:

*The passing of any infrastructure (cables, pipes, pipelines, etc.) with the TAP pipeline (regardless of depth) requires prior notification to and approval by TAP.

What's not allowed

IN THE "BUILDING RESTRICTION" ZONE
(20+20m ON EITHER SIDE OF THE PIPELINE AXIS)

According to Greek legislation, the following activities are not allowed:
